

Enrichment at The Langley Academy

We want to give our students unique and enriching opportunities to develop holistically. Our enrichment programme is exciting and broad, allowing students to choose from a wide variety of activities that challenge and enthuse them each term. Our strapline of Curiosity, Exploration and Discovery will underpin our extra-curricular provision.

What our enrichment looks like:

- A wide variety of activities on offer
- Teachers who are passionate about delivering those activities
- Students and staff thoroughly engaged with the activity
- Enthusiasm and excitement customary in all activities
