| | Discussion | Action |
|--|---|--------|
| | <p>General discussion about worries and thoughts on academy day to day life.</p> <ul style="list-style-type: none"> • The younger students are getting barged on the stairs by older students pushing and shoving on purpose, there isn't enough staff around on the stairs doing duties. • Students play around and spray deodorant on the balconies. • In the North Wing there is a gang that sit's by the lift that taunt smaller students when they go for a drink from the fountain. • Academy reports are now very confusing and the students now don't know what level they are on and what level they should be on as they haven't had the new reports explained to them. • Y7 Science tell the students what grade they have achieved. • If the student is a concern then the students don't know why. • The students would rather grades be written on the reports. • The Tutor programme is boring and sometimes the teachers don't even stick to it. • Sometimes if the tutor group have a power point, you just have to copy it and write it down with no discussions about the subject. • In the tutor groups all you do is talk, it would be more interesting to do different things. • Students would like more discussions, debating, activities and games. • Some house tutors stick to the programme but most don't. | |
